

Database

The screenshot shows the phpMyAdmin interface. On the left is a sidebar with a tree view of databases: 'New', 'client_details' (expanded), 'New', 'clients' (selected), 'information_schema', 'mysql', 'performance_schema', and 'phpmyadmin'. The main area displays the 'Table structure' for the 'clients' table in the 'client_details' database. The table has 9 columns: 'id' (int(11), PRIMARY, AUTO_INCREMENT), 'name' (varchar(255)), 'position' (varchar(255)), 'company' (varchar(255)), 'address' (varchar(255)), 'phone' (varchar(255)), 'email' (varchar(255)), 'image' (varchar(255)), and 'createdAt' (timestamp). Below the table structure are various actions: 'Check all', 'With selected:', 'Browse', 'Change', 'Drop', 'Primary', 'Unique', and 'Remove from central columns'. There are also links for 'Print', 'Propose table structure', 'Track table', 'Move columns', and 'Normalize'. At the bottom, there is an 'Add' button and a text input field with '1' and a dropdown menu set to 'after createdAt', with a 'Go' button. Below this is an 'Indexes' section showing a table with columns: 'Action', 'Keyname', 'Type', 'Unique', 'Packed', 'Column', 'Cardinality', 'Collation', 'Null', and 'Comments'. The table contains one row for the PRIMARY index on the 'id' column, which is a BTREE index, is unique, not packed, has a cardinality of 0, and a collation of 'A'.

#	Name	Type	Collation	Attributes	Null	Default	Comments	Extra
1	id	int(11)			No	None		AUTO_INCREMENT
2	name	varchar(255)	utf8mb4_general_ci		No	None		
3	position	varchar(255)	utf8mb4_general_ci		No	None		
4	company	varchar(255)	utf8mb4_general_ci		No	None		
5	address	varchar(255)	utf8mb4_general_ci		No	None		
6	phone	varchar(255)	utf8mb4_general_ci		No	None		
7	email	varchar(255)	utf8mb4_general_ci		No	None		
8	image	varchar(255)	utf8mb4_general_ci		No	None		
9	createdAt	timestamp			No	current_timestamp()		ON UPDATE CURRENT_TIMESTAMP

Action	Keyname	Type	Unique	Packed	Column	Cardinality	Collation	Null	Comments
Edit Rename Drop	PRIMARY	BTREE	Yes	No	id	0	A	No	

Pages

Default page

The screenshot shows the default page of the address book application. The browser address bar shows 'localhost:2000'. The page has a header with the text 'Welcome to address book with client details' and a link 'Add a client'. The main content area is empty, with a message at the bottom: 'No clients found. Go [here](#) to add clients.'
